

A circular diagram illustrating the zones for print layout. It features three concentric boundaries: a solid red line at the outermost edge, a dashed black line in the middle, and a dashed blue line at the innermost edge. The area between the red and black lines is labeled 'Bleed', the area between the black and blue lines is labeled 'Cut Line', and the area inside the blue line is labeled 'Safety'. Arrows point from each text label to its corresponding boundary line.

Bleed

Artwork that reaches the cutline needs to extend to the edge of the red line.

Cut Line

This is where your artwork will be trimmed.
(Finished size ordered)

Safety

All text must be kept within the blue line.
